INTRODUCTION

Final-year B.Tech (CSE-IT) student with hands-on experience in Python, data analysis, machine learning, and full-stack web development. Completed 4 industry-recognized certifications in data analytics and AI/ML. Built real-world projects involving data analysis, API integration, AI-based automation, and responsive UI development. Strong analytical and problem-solving skills with a quick-learning mindset.

SKILLS

Programming Languages: Python, SQL, C, C++, Java, JavaScript

Data Analysis: Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA)

Data Visualization and BI: Power BI, Excel (Pivot Tables, Dashboards), Matplotlib

Artificial Intelligence and Machine Learning: Scikit-learn, Supervised and Unsupervised Learning, Model Evaluation

Web Development: HTML, CSS, JavaScript, Bootstrap, REST API Integration, Responsive Design

Databases: MySQL, MongoDB, SQL Queries

Tools and Platforms: Git, GitHub, GitHub Actions, Jupyter Notebook, Google Colab, VS Code

Professional Skills: Analytical Thinking, Problem Solving, Communication, Collaboration, Adaptability

PROJECTS

Prachi AI – Universal STEM Tutor and Voice Assistant | JavaScript (ES6+) · Cloudflare Workers · Web Speech API · CSS Grid

- Developed a full-featured AI web application with multi-chat session management and conversation history persisted using localStorage, with multi-model selection (Prachi Cognitive Engine and Deep Reasoner).
- Built a 5-point step-by-step problem solver for Calculus, Physics numericals, and Chemistry, plus a hands-free Hindi/English voice assistant with speech-to-text and voice readout using the Web Speech API.

House Security App Using AI | JavaScript · Machine Learning · Cloud API

- Developed a smart house security system using JavaScript and machine learning models integrated with Cloud API for real-time threat analysis.
- Implemented event-driven alerts and automated responses based on pattern recognition from sensor data inputs.

UNO Playing Card Game | HTML · CSS · JavaScript · Bootstrap / Tailwind CSS

- Designed and developed an interactive card game featuring smooth animations, responsive layout, and modular component-based architecture.
- Leveraged Bootstrap/Tailwind CSS for rapid UI development and cross-device compatibility.

Personal Portfolio Website | HTML · CSS · JavaScript · GitHub API · GitHub Pages

- Designed and deployed a responsive personal portfolio on GitHub Pages showcasing projects, skills, certifications, and education with an interactive skills filter and smooth navigation.
- Integrated the GitHub REST API for live repository sync and set up a scheduled GitHub Actions workflow to keep portfolio content updated automatically.

Netflix Content Analysis | Python · Pandas · NumPy · Jupyter Notebook · Data Visualization

- Analysed 8,787 Netflix titles with Python (Pandas, NumPy) as part of an Auspify Technologies internship project: data cleaning, content type, country, release-year, rating and genre analysis.
- Built visualizations, dashboards and PDF reports to present insights, such as Movies making up about 70% of the catalog and TV Shows overtaking Movies in 2021 releases.

CERTIFICATIONS

- Data Analysis with Python
- Foundations: Data, Data, Everywhere
- Introduction to Data Analytics
- Fundamentals of Machine Learning and Artificial Intelligence

EDUCATION

B.Tech, Computer Science and Engineering (IT) | IIMT College of Engineering, AKTU | Pursuing (Final Year)

Class XII, BSEB | C.A.B.S College, Khamhar, Begusarai | 2023 | 67.8%

Class X, BSEB | S.P.S High School, Binodpur, Begusarai | 2021 | 68.2%
